Report on Industrial Visit at Pranami Drugs & Believe International

Date: 23rd October 2024

Participants: 6th Semester B. Pharm

No. of Participants: 104.

An industrial visit was organized for the third-year B.Pharm students of Shree Naranjibhai Lalbhai Patel College of Pharmacy, to Pranami Drug, Ankleshwar, and Believe International, Kosamba, with the objective of providing students practical exposure to the pharmaceutical manufacturing environment. A total of 104 students accompanied by 4 faculty members participated in the visit.

At Pranami Drug, students gained valuable insights into the production of Active Pharmaceutical Ingredients (APIs) and intermediates. They were shown the entire production process, including the use of reactors, centrifuges, and drying equipment, and were briefed on safety measures, environmental protocols, and documentation practices as per GMP standards.

The visit to Believe International offered exposure to the formulation side of the pharmaceutical industry. Students observed various formulation processes including granulation, tablet compression, coating, and packaging, as well as the operation of quality control instruments such as HPLC and UV spectrophotometers. The professionals at both facilities shared their knowledge and experiences, which helped students understand the practical application of their academic studies. This visit served as a vital learning opportunity, bridging the gap between theory and practice, and enhanced the students' understanding of pharmaceutical manufacturing, quality assurance, and regulatory compliance.
