Teachers' day Celebration Report

Date: 05/9/2025

Teachers' Day is celebrated every year on 5th September to commemorate the birth anniversary of Dr. Sarvepalli Radhakrishnan, a distinguished scholar, philosopher, and former President of India who made remarkable contributions to the field of education. The day is observed to acknowledge and appreciate the invaluable role of teachers in shaping the knowledge, character, and future of students. To mark this occasion, our college celebrated Teachers' Day with great enthusiasm and respect as a tribute to the dedication and commitment of all faculty members. As part of the celebration, the students of VII Semester B. Pharm actively participated by conducting theory lectures and practical sessions for junior students. This activity provided them with an opportunity to experience the responsibilities of teaching, enhance their communication and presentation skills, and develop confidence while understanding the importance of the teaching profession. It also helped students discover their hidden talents and prepare themselves for professional responsibilities in the future. Following the academic sessions, the students organized a felicitation program to express their gratitude and affection toward the teachers. Faculty members were honored with roses, pens, and snacks as a token of appreciation for their continuous guidance and support. The celebration also included an informal interaction between students and faculty members, which created a warm, friendly, and joyful atmosphere, strengthening the bond between teachers and students. In addition, the dedication and efforts of the student teachers were recognized and appreciated by awarding certificates to the Best Student Teachers from different semesters based on their teaching performance and participation. The event concluded successfully, highlighting the importance of the teaching profession and reinforcing respect, gratitude, and inspiration among students toward their teachers.
